November 2013

This workforce solution was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information, including information on linked sites and including, but not limited to, accuracy of the information or its completeness, timelines, usefulness, adequacy, continued availability, or ownership.

## ABOUT RUTGERS SCHOOL OF MANAGEMENT AND LABOR RELATIONS

Rutgers' School of Management and Labor Relations (SMLR) is the leading source of expertise on the world of work, building effective and sustainable organizations, and the changing employment relationship. The school is comprised of two departments-one focused on all aspects of strategic human resource management and the other dedicated to the social science specialties related to labor studies and employment relations. In addition, SMLR provides many continuing education and certificate programs taught by world-class researchers and expert practitioners.

SMLR was originally established by an act of the New Jersey legislature in 1947 as the Institute of Management and Labor Relations (IMLR). Like its counterparts that were created in the other large industrial states at the same time, the Institute was chartered to promote new forms of labor-management cooperation following the industrial unrest at the end of World War II. It officially became a school at the flagship campus of the State University of New Jersey in New Brunswick/Piscataway in 1994. For more information, visit smlr.rutgers.edu.

## ABOUT THE EDUCATION AND EMPLOYMENT RESEARCH CENTER

Rutgers' Education and Employment Research Center (EERC) is housed within the School of Management and Labor Relations. EERC conducts research and evaluations on education and workforce development programs and policies. EERC research expertise include community colleges, state and federal workforce developmental systems, skills development, college completion, and innovative and technology-based programs.

## Introduction

This analysis looks at the progress made at the program level in terms of the number of courses redesigned, students served and academic course outcomes attained across the consortium. For a profile of the courses redesigned from the outset of the grant through the Summer 2013 term, please see the Interim Master Course Report found at this link ${ }^{1}$ which includes a directory of validated courses redesigned by the colleges as of October $4^{\text {th }}, 2013$.

## Data and Methods

The redesigned course data is self-reported by the college Project Managers/Leads and has been used to generate the student level data reported below by college. The Project Leads have also self-identified the modality for each of the redesigned courses reported. DE course are categorized in terms of pedagogical approaches (i.e. accelerated, compressed, modularized, etc.) and the Energy courses are coded by instructional modality (i.e. traditional, hybrid and online.)

The data for the redesigned course rosters was provided by data specialists at CCCS for all system schools and at Aims and CMC. The listing of redesigned courses from Spring 2012 through Spring 2013 were validated as accurate by the Project Leads at each college as part of the $2^{\text {nd }}$ Quarter report.

The course data was generated at each college by curriculum, meaning redesigned DE and Energy courses were analyzed separately. As such, the analysis is provided in two parts for those schools in the consortium with energy programs. Because the analysis is bifurcated, it does allow for between college comparisons within the curriculum.

Finally, an analysis of academic outcomes is summarized. This analysis begins by reporting the group academic mean (grade mean) for every unique course redesigned. In order to conduct this analysis, the grades were converted to a 4.0 grade point average (GPA) at the system schools. Although DE course grades are not calculated within the student GPA, the conversion was made for the purpose of this comparative analysis.

[^0]A table of overall grades by mode is presented by college which displays actual course grade outcomes.

We begin the course grade outcome analysis by first reporting the group grade mean by unique course titles. This is referred to as the Course mean. In future evaluation reports, we will provide analysis at the individual course registration level allowing us to compare courses offered with more than one section.

In this report, each course is then compared to the group grade mean by several outcomes measured and defined below:

- Course Mean (compares all identical courses by course title)
- Department Mean (representing all redesigned courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
- Curriculum Mean (includes all courses offered within Redesigned DE or Energy Curriculum)

In those instances where multiple course sections have not been offered, the course grade for each Course, Level, Subject and Curriculum will be the same. One final note: we have included data through Spring 2013 as many of these courses were planned during the previous fiscal year in order to capture the efforts of the Year One Outcomes.

## College Level Data

For a snap shot of the students served in terms of total and unique students served across the DE and energy curriculums, please see Figures 1 and 2. This figure reflects student enrollments as measured against the goals projected for the grant.

Fig.1. Student enrollment in DE redesigned courses through Spring 2013.

Fig.2. Student enrollment in Energy redesigned courses through Spring 2013. ${ }^{23}$

[^1]In addition to the consortium data, Rutgers School of Management and Labor Relations has collected data for all students served in a redesigned course. This analysis follows this section. As noted above, a distinction is made between total students served and unique students served. Tabular data are also presented which displays students served by term, by course and by subject. Similarly, course and subject data are also presented by level of instruction. At those schools offering an energy curriculum, these data tables are replicated.

## Key Observations

Overall, the consortium has exceeded the number of students served by a redesigned DE course proposed under the TAACCCT grant. To date, 8,960 unique students enrolled in a redesigned course as compared to 2,395 students projected under the goals of the grant. Of the total number of students served, 12,829 students have been enrolled in a redesigned course since the inception of the grant through Spring 2013. While a percentage of students enrolled did not persist to the end of the term, this student outcome still far exceeds the goals of the grant.

In terms of the Energy curriculum, 269 unique students have enrolled in redesigned course funded through the grant. This represents almost 13 percent of the grant target. While this attainment is more modest, which is due in part to delays resulting from state level curriculum approvals, the total number of students served to date are 432. This increased number reflects students who are enrolling in stackable courses as well new courses that are offered each semester.

## Next Steps

At the end of each term, following the processing of final grades, we will report academic course outcomes for each subsequent semester. A comparison will also be made between the new courses offered against the previous term course offerings. This comparison will help to assess whether the second and third generation of courses influences course outcomes.

[^2]We will also operationalize the data by instructor within each college in order to control for differences in instruction that may vary within the same course offerings.

In order to make projections about goal attainment within the Energy curriculum, a complete curriculum list of for-credit and non-credit curriculum is needed.

Lastly, we will code future group mean outcomes by modality within each curriculum. This assessment will help control for differences that may result from modality strategies.

## ACC

At ACC, the number of redesigned DE courses totaled 9 unique course offerings and 31 unique section offerings through Spring 2013. Approximately two-thirds of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=491$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of ACC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
| Term \& Year | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned <br> DE Population) |  |
| Spring 2012 | 7.5 | 37 |  |
| Fall 2012 | 29.9 | 147 |  |
| Spring 2013 | 62.6 | 307 |  |
| Total | 100.0 | 491 |  |

In terms of overall student retention, 83.1 percent of students $(\mathrm{n}=408)$ who registered for redesigned DE courses persisted in the course while 2.4 percent ( $\mathrm{n}=12$ ) dropped the course after the start of the semester and 14.5 percent ( $\mathrm{n}=71$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At ACC, eighty percent of students served by redesigned DE course were enrolled in Math subjects, followed by English (7.7\%), Reading ( $7.7 \%$ ), and Contextualized (3.9\%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of ACC Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| English | 7.7 | 38 |
| Math | 80.7 | 396 |
| Reading | 7.7 | 38 |
| DE Contextualized | 3.9 | 19 |
| Total | 100.0 | 491 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: ACC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Course Level |  |  |  |  |  |  |  |  |
| Subject | 45 | 60 | 90 | 95 | 99 | 109 | 121 | Total \% | Total N |
| English | 0\% | 50\% | 50\% | 0\% | 0\% | 0\% | 0\% | 100\% | 28 |
| Math | 62.1\% | 0\% | 0\% | 28.5\% | 3.0\% | 0\% | 6.4\% | 100\% | 396 |
| Reading | 0\% | 50\% | 50\% | 0\% | 0\% | 0\% | 0\% | 100\% | 38 |
| DE <br> Contextualized | 0\% | 0\% | 0\% | 0\% | 0\% | 100\% | 0\% | 100\% | 19 |
| Total | 50.1\% | 7.7\% | 7.7\% | 23.0\% | 2.4\% | 3.9\% | 5.2\% | 100\% | 491 |

Tables 4 and 5 displays the redesigned course offered by course title and also by course level. The percentage in Table 4 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

| Table 4: Number of ACC Students Enrolled in DE Redesigned Courses by Course Title |  |  |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students is presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: ACC Cumulative Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total Redesigned <br> DE Population (All Terms) | N (Redesigned <br> DE Population) |
| A | 2.4 | 12 |
| B | 1.8 | 9 |
| C | 1.4 | 7 |
| D | 0.8 | 4 |
| F | 1.0 | 5 |
| DE Level Grades Value | Percent | $\mathbf{N}$ |
| S/A | 21.0 | 103 |
| S/B | 23.4 | 115 |
| S/C | 14.7 | 72 |
| U/D | 4.1 | 20 |
| U/F | 11.6 | 57 |
| Not Completed | Percent | $\mathbf{N}$ |
| INC | 0.8 | 4 |
| Withdrawn | 15.4 | 75 |
| Null (Not completed) | 1.6 | 8 |
| Total | 100.0 | 491 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by ACC Students in DE Redesigned Courses ${ }^{4}$ |  |  |  |
| :--- | ---: | ---: | :---: |
| Course Title | Course <br> Mean | Department <br> Mean | Curriculum <br> Mean |
| Advanced Academic <br> Achievement | 2.0588 | 2.0588 | 2.4853 |
| Basic Composition | 2.8333 | 3.1111 | 2.4853 |
| College Algebra : MA1 | 2.9000 | 2.5155 | 2.4853 |
| College Preparatory Reading | 1.3750 | 1.7273 | 2.4853 |
| Compress Pre Alg/ Basic Math | 2.2921 | 2.5155 | 2.4853 |
| Compressed Intro/Inter <br> Algebra | 2.8889 | 2.5155 | 2.4853 |
| Foundations of Reading | 2.0588 | 1.7273 | 2.4853 |

| Writing Fundamentals | 3.3889 | 3.1111 | 2.4853 |

[^3]Aims

## Developmental Education

At Aims, the number of redesigned DE courses totaled 4 unique course offerings and 57 unique section offerings through Spring 2013. Approximately one-third of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $n=990$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Number of Aims Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Spring 2012 | 2.6 | 26 |  |
| Summer | 13.6 | 135 |  |
| 2012 | 46.4 | 459 |  |
| Fall 2012 | 37.4 | 370 |  |
| Spring 2013 | 100 | 990 |  |
| Total |  |  | 26 |

In terms of overall student retention, 88.8 percent of students $(\mathrm{n}=880)$ who registered for redesigned DE courses persisted in the course while 11.2 percent ( $\mathrm{n}=110$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At Aims, all of the students served by redesigned DE course were enrolled in Math subjects. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of Aims Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |
| Math | 100.0 | 990 |
| Total | 100.0 | 990 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: Aims DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | ---: |
| Subject | Course Level |  |  |  |  |  |
|  | $\mathbf{3 0}$ | $\mathbf{4 5}$ | $\mathbf{6 0}$ | $\mathbf{7 5}$ | Total \% | Total N |

[^4]
## Aims

## Energy

At Aims, the number of redesigned energy courses totaled 6 unique course offerings and 9 unique section offerings through Spring 2013. Approximately eightyseven percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(n=168)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of Aims Students Enrolled in Redesigned Energy Courses by Term |  |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |  |
| Fall 2012 | 12.5 | 21 |  |
| Spring <br> 2013 | 87.5 | 147 |  |
| Total | 100.0 | 168 |  |

In terms of overall student retention, 89.3 percent of students ( $\mathrm{n}=150$ ) who registered for redesigned energy courses persisted in the course while 10.7 percent $(\mathrm{n}=18)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At Aims, every student served by redesigned energy course was enrolled in regular redesigned energy courses as opposed to the subject called contextualized energy. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of Aims Students Enrolled in Redesigned Energy Courses by Subject |  |  |
| :---: | :---: | :---: |
| Subject | Percent of Total Redesigned Energy Population (All Subjects) | N (Redesigned Energy Population) |
| Energy | 100.0 | 168 |
| Total | 100.0 | 168 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: Aims Redesigned Energy Course Offerings by Subject Level |  |  |  |  |  |  |  |  |

| Time <br> Management | $0.0 \%$ | $0.0 \%$ | $100.0 \%$ | $0.0 \%$ | $0.0 \%$ | $100.0 \%$ | 33 |  |
| Total | $35.1 \%$ | $13.1 \%$ | $19.6 \%$ | $17.3 \%$ | $14.9 \%$ | $100.0 \%$ | 168 |  |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students is presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: Aims Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades <br> Value | Percent of Total <br> Redesigned Energy <br> Population (All Subjects) | N (Redesigned <br> Energy <br> Population) |
| A | 40.5 | 68 |
| B | 24.4 | 41 |
| C | 6.5 | 11 |
| D | 6.0 | 10 |
| F | 11.9 | 20 |
| Not Completed | Percent | $\mathbf{N}$ |
| Withdrawn | 10.7 | 18 |
| Total | 100.0 | 168 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by TSJC Students in Redesigned Energy Courses |  |  |  |
| :--- | :--- | :--- | :--- |
| Course Title | Section <br> Mean | Department <br> Mean | Curriculum <br> Mean |
| Business Ethics and Values | 3.2857 | 2.8467 | 2.8467 |

| Intro to Energy Technology | 2.2143 | 2.8467 | 2.8467 |
| Petroleum Fundamentals | 2.6316 | 2.8467 | 2.8467 |
| Teambuilding | 3.5357 | 2.8467 | 2.8467 |
| Time Management | 2.6333 | 2.8467 | 2.8467 |

[^5]
## CCA

At CCA, the number of redesigned DE courses totaled 8 unique course offerings and 121 unique section offerings through Spring 2013. Approximately one-third of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=2148$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of CCA Students Enrolled in DE Redesigned Courses by Term |  |  |
| :--- | ---: | ---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| Spring 2012 | 25.6 | 549 |
| Summer <br> 2012 | 5.5 | 120 |
| Fall 2012 | 38.4 | 824 |
| Spring 2013 | 30.5 | 655 |
| Total | 100.0 | 2148 |

In terms of overall student retention, 79.8 percent of students ( $\mathrm{n}=1714$ ) who registered for redesigned DE courses persisted in the course while 0.5 percent ( $n=10$ ) dropped the course after the start of the semester and 19.7 percent $(\mathrm{n}=424)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At CCA, just over half of students served by redesigned DE course were enrolled in English subjects (54.6\%), followed by Math (29.9 $\%$ ) and Reading ( $15.5 \%$ ). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of CCA Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |
| English | 54.6 | 1172 |
| Math | 29.9 | 642 |
| Reading | 15.5 | 334 |
| Total | 100.0 | 2148 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: CCA DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Subject | Course Level |  |  |  |  |  |  |  |
|  | 45 | 60 | 75 | 90 | 96 | 121 | Total \% | Total N |
| English | 0\% | 52.8\% | 0\% | 39.0\% | 0\% | 8.2\% | 100\% | 1172 |
| Math | 63.6\% | 0\% | 0\% | 0\% | 36.4\% | 0\% | 100\% | 642 |
| Reading | 0\% | 12.9\% | 61.7\% | 25.4\% | 0\% | 0\% | 100\% | 334 |
| Total | 19.0\% | 30.8\% | 9.6\% | 25.2\% | 10.9\% | 4.5\% | 100\% | 2148 |

Tables 4 and 5 displays the redesigned course offered by course title and also by course level. The percentage in Table 4 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

| Table 4: Number of CCA Students Enrolled in DE Redesigned <br> Courses by Course Title |  |  |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students in presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: CCA Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total <br> Redesigned DE <br> Population (All <br> Subjects) | N <br> (Redesigned <br> DE <br> Population) |
| A | 0.7 | 14 |
| B | 1.3 | 27 |
| C | 0.7 | 14 |
| D | 0.4 | 9 |
| F | 0.5 | 10 |
| DE Level Grades Value | Percent | $\mathbf{N}$ |
| S/A | 14.0 | 301 |
| S/B | 25.4 | 546 |
| S/C | 15.0 | 323 |
| U/D | 5.2 | 112 |
| U/F | 16.3 | 351 |
| Not Completed | Percent | $\mathbf{N}$ |
| Null | 12.7 | 273 |
| Withdrawn | 7.8 | 168 |
| Total | 100.0 | 2148 |

Finally, a comparison of grouped section grade outcomes is presented for each course title in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual course title grade mean is then compared to all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide mean grades by CRN and course level as well as descriptive text for the coded CRN number to be referenced.)

[^6]
## CCD

At CCD, the number of redesigned DE courses totaled 17 unique course offerings and 15 unique section offerings through Spring 2013. Approximately thirty-nine percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=3049)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

Table 1: Number of CCD Students Enrolled in DE Redesigned Courses by Term

| Term \& Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| :--- | ---: | ---: |
| Spring 2012 | 23.2 | 708 |
| Fall 2012 | 37.7 | 1148 |
| Spring 2013 | 39.1 | 1193 |
| Total | 100.0 | 3049 |

In terms of overall student retention, 91.2 percent of students ( $\mathrm{n}=2780$ ) who registered for redesigned DE courses persisted in the course while 3.3 percent ( $\mathrm{n}=100$ ) dropped the course after the start of the semester and 5.5 percent ( $\mathrm{n}=169$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At CCD, thirty nine percent of students served by redesigned DE course were enrolled in English subjects, followed by Math ( 30.0 \%), Reading (19.2\%), and DE Contextualized courses (11.8). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of CCD Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned <br> DE Population) |
| English | 38.5 | 1175 |
| Math | 30.0 | 916 |
| Reading | 19.7 | 601 |
| DE Contextualized | 11.7 | 357 |
| Total | 100.0 | 3049 |

For CCD's student enrollment by each course level of courses offered by subject, please refer to Appendix I as the table was too large to fit here

Table 3 displays the redesigned course offered by course title. For the redesigned courses offered by course level, please refer to Appendix I as the table was too large to fit here. The percentage in Table 3 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

| Table 3: Number of CCD Students Enrolled in DE Redesigned Courses by Course |  |

## CMC

Developmental Education

There were no redesigned developmental education courses offered at CMC as of Spring 2013.

## CMC

## Energy

At CMC, the number of redesigned energy courses totaled 4 unique course offerings and 4 unique section offerings through Spring 2013 ${ }^{9}$. All of the courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=31)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of CMC Students Enrolled in Redesigned Energy Courses by Term |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |
| Spring <br> 2012 | 100.0 | 31 |
| Total | 100.0 | 31 |

In terms of overall student retention, we have no data on the registration status of these students.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At CMC, every student served by redesigned energy course were enrolled in regular redesigned energy courses as opposed to the subject called contextualized energy. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of CMC Students Enrolled in Redesigned Energy Courses by Subject |  |  |
| :---: | :---: | :---: |
| Subject | Percent of Total Redesigned Energy Population (All Subjects) | N (Redesigned Energy Population) |
| Energy | 100.0 | 31 |
| Total | 100.0 | 31 |

[^8]Table 3 presents student enrollment by each course level of courses offered by subject.

## Course Level Academic Outcomes

The mode of all grades achieved by individual students in presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F). Any grades, such as A- or B+, had the signs removed for grouping purposes.

[^10]| Table 6: CMC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades <br> Value | Percent of Total <br> Redesigned Energy <br> Population (All Subjects) | N (Redesigned <br> Energy <br> Population) |
| A | 74.2 | 23 |
| B | 9.7 | 3 |
| C | 3.2 | 1 |
| D | 0 | 0 |
| F | 12.9 | 4 |
| Total | 100 | 31 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by CMC Students in Redesigned Energy Courses ${ }^{14}$ |  |  |  |  |
| :--- | ---: | ---: | ---: | :---: |
| Course Title | Course <br> Mean | Department <br> Mean | Curriculum Mean |  |

| Safety, Health, \& Environment | 3.2000 | 3.3226 | 3.3226 |  |
| National Electric Code | 4.0000 | 3.3226 | 3.3226 |  |
| Solar Photovoltaic Components | 1.8571 | 3.3226 | 3.3226 |  |

[^11]
## CNCC

At CNCC, the number of redesigned DE courses totaled 3 unique course offerings and 53 unique section offerings through Spring 2013. Approximately onethird of all courses have been offered in the most recent term. Table 1 displays the rollout of these course offerings by term as well as the percentage and number of total students served by these courses $(n=469)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of CNCC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Summer <br> 2012 | 5.6 |  |  |
| Fall 2012 | 58.6 | 26 |  |
| Spring 2013 | 35.8 | 275 |  |
| Total | 100.0 | 168 |  |

In terms of overall student retention, 83.4 percent of students ( $\mathrm{n}=391$ ) who registered for redesigned DE courses persisted in the course while 9.3 percent ( $n=44$ ) dropped the course after the start of the semester and 7.3 percent ( $n=34$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At CNCC, just over half of students served by redesigned DE course were enrolled in Math subjects (51.2\%), followed by English (32.8 $\%$ ) and Reading ( $16 \%$ ). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of CNCC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |
| :--- | ---: | ---: | :---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |  |
| English | 32.8 | 154 |  |
| Math | 51.2 | 240 |  |
| Reading | 16.0 | 75 |  |
| Total | 100.0 | 469 |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: CNCC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students in presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: CNCC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total Redesigned <br> DE Population (All <br> Subjects) | N (Redesigned DE <br> Population) |
| A | 0 | 0 |
| B | 0.5 | 2 |
| C | 0.2 | 1 |
| D | 0.2 | 1 |
| F | 0 | $\mathbf{N}$ |
| DE Level Grades Value | Percent | $\mathbf{N}$ |
| S/A | 25.6 | 120 |
| S/B | 18.8 | 88 |
| S/C | 20.9 | 98 |
| U/D | 3.2 | 15 |
| U/F | 13.6 | 64 |
| Not Completed | Percent | $\mathbf{N}$ |
| INC | 0.2 | 1 |
| Withdrawn | 7.4 | 34 |
| Null (Not completed) | 9.4 | 44 |
| Total | 100 | 469 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by CNCC Students in DE Redesigned Courses ${ }^{\mathbf{1 5}}$ |  |  |  |

| Special Topics in Reading | 2.8871 | 2.8871 | 2.4781 |

[^12]
## FRCC

## Developmental Education

At FRCC, the number of redesigned DE courses totaled 19 unique course offerings and 115 unique section offerings through Spring 2013. Approximately twenty percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=1741)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of FRCC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Spring <br> 2012 | 45.4 | 790 |  |
| Fall 2012 | 37.0 | 645 |  |
| Spring <br> 2013 | 17.6 | 306 |  |
| Total | 100.0 | 1741 |  |

In terms of overall student retention, 90.0 percent of students ( $\mathrm{n}=1567$ ) who registered for redesigned DE courses persisted in the course while 2.4 percent ( $\mathrm{n}=42$ ) dropped the course after the start of the semester and 7.6 percent ( $n=132$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At FRCC, nearly half of students served by redesigned DE course were enrolled in Math subjects (50.6\%), followed by English (30.5 $\%$ ), Reading ( $5.6 \%$ ), and Contextualized courses (13.3\%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of FRCC Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| English | 30.5 | 531 |
| Math | 50.6 | 881 |
| Reading | 5.6 | 98 |
| DE <br> Contextualized | 13.3 | 231 |
| Total | 100.0 | 1741 |

For FRCC's student enrollment by each course level of courses offered by subject, please refer to Appendix II as the table was too large to fit here.

Table 3 displays the redesigned course offered by course title. For the redesigned courses offered by course level, please refer to Appendix II as the table was too large to fit here. The percentage in Table 3 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

Table 3: Number of FRCC Students Enrolled in DE Redesigned Courses by Course Title

## FRCC

## Energy

At FRCC, the number of redesigned energy courses totaled 3 unique course offerings and 5 unique section offerings through Spring 2013. ${ }^{17}$ All of the courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=52$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of FRCC Students Enrolled in Redesigned Energy Courses by Term |  |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |  |
| Spring <br> 2013 | 100.0 | 52 |  |
| Total | 100.0 | 52 |  |

In terms of overall student retention, 96.2 percent of students ( $\mathrm{n}=50$ ) who registered for redesigned DE courses persisted in the course while 1.9 percent ( $\mathrm{n}=1$ ) dropped the course after the start of the semester and 1.9 percent ( $\mathrm{n}=1$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At FRCC, two-thirds of students served by redesigned DE course were enrolled in Math subjects, followed by English (26\%) and Reading (7\%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

[^15]
## LCC

At LCC, the number of redesigned DE courses totaled 4 unique course offerings and 19 unique section offerings through Spring 2013. Approximately forty percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=221)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of LCC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Summer <br> 2012 | 8.6 |  |  |
| Fall 2012 | 55.2 | 19 |  |
| Spring 2013 | 36.2 | 122 |  |
| Total | 100.0 | 80 |  |

In terms of overall student retention, 71.5 percent of students ( $\mathrm{n}=158$ ) who registered for redesigned DE courses persisted in the course while 24.4 percent ( $\mathrm{n}=54$ ) dropped the course after the start of the semester and 4.1 percent $(n=9)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At LCC, approximately seventy-two percent of students served by redesigned DE course were enrolled in Math subjects, followed by English (24\%) and Reading (3.2\%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of LCC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |

| Summer <br> 2012 | 3.1 | 11 |  |
| Fall 2012 | 37.7 | 135 |  |
| Spring 2013 | 50.0 | 179 |  |
| Total | 100.0 | 358 |  |

In terms of overall student retention, 89.1 percent of students $(\mathrm{n}=319)$ who registered for redesigned DE courses persisted in the course while 3.9 percent ( $\mathrm{n}=14$ ) dropped the course after the start of the semester and 7.0 percent ( $n=25$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At MCC, approximately fifty seven percent of students served by redesigned DE course were enrolled in Math subjects, followed by English ( $26.8 \%$ ) and Reading ( $15.9 \%$ ). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of MCC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |
| :--- | ---: | ---: | :---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |  |
| English | 26.8 | 96 |  |
| Math | 57.3 | 205 |  |
| Reading | 15.9 | 57 |  |
| Total | 100 | 358 |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: MCC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |  |
| :--- | ---: | ---: | :---: | ---: | ---: | ---: | ---: | :---: |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students in presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: MCC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total <br> Redesigned DE <br> Population (All <br> Subjects) | N <br> (Redesigned <br> DE <br> Population) |
| A | 1.1 | 4 |
| B | 1.4 | 5 |
| C | 0.8 | 3 |
| D | 0.8 | 3 |
| F | 0.3 | 1 |
| DE Level Grades Value | Percent | $\mathbf{N}$ |
| S/A | 21.8 | 78 |
| S/B | 20.7 | 74 |
| S/C | 20.1 | 72 |
| U/D | 9.8 | 35 |
| U/F | 12.3 | 44 |
| Not Completed | Percent | $\mathbf{N}$ |
| Withdrawn | 7.0 | 25 |
| Null (Not completed) | 3.9 | 14 |
| Total | 100.0 | 358 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from 4.0 (S/A) to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by MCC Students in DE Redesigned Courses ${ }^{20}$ |  |  |  |
| :--- | ---: | ---: | :---: |
| Course Title | Section Mean | Department <br> Mean | Curriculum <br> Mean |

| Writing Fundamentals | 2.0455 | 2.1807 | 2.3605 |

[^17]
## NJC

## Developmental Education

At NJC, the number of redesigned DE courses totaled 2 unique course offerings and 4 unique section offerings through Spring 2013. Approximately fifty-seven percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=73$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of NJC Students Enrolled in DE Redesigned Courses by Term |  |  |  |  |
| :--- | :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |  |
| Fall 2012 |  | 42.5 |  | 31 |
| Spring |  | 57.5 | 42 |  |
| 2013 |  | 100 |  | 73 |
| Total |  |  |  |  |

In terms of overall student retention, 71.2 percent of students ( $\mathrm{n}=52$ ) who registered for redesigned DE courses persisted in the course while12.3 percent ( $\mathrm{n}=9$ ) dropped the course after the start of the semester and 16.4 percent $(\mathrm{n}=12)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At NJC, every student served by redesigned DE course were enrolled in Math subjects. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of NJC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |  |
| :--- | ---: | ---: | ---: | :---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |  |  |
| Math |  | 100 |  |  |
| Total | 100.0 |  | 73 |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: NJC DE Redesigned Course Offerings by Subject Level |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
| Subject | Course Level |  |  |  |
|  | $\mathbf{4 5}$ | $\mathbf{9 6}$ | Total \% | Total N |

[^18]
## NJC

## Energy

At NJC, the number of redesigned energy courses totaled 3 unique course offerings and 4 unique section offerings through Spring 2013. Approximately threequarters of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $n=4$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of NJC Students Enrolled in Redesigned Energy Courses by Term |  |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |  |
| Fall 2012 | 25.0 |  | 1 |
| Spring <br> 2013 | 75.0 | 3 |  |
| Total | 100.0 |  | 4 |

In terms of overall student retention, 75 percent of students ( $n=3$ ) who registered for redesigned DE courses persisted in the course while 25 percent ( $n=1$ ) dropped the course after the start of the semester.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At NJC, every student served by redesigned energy course were enrolled in regular redesigned energy courses as opposed to the subject called contextualized energy. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

\left.| Table 2: Number of NJC Students Enrolled in Redesigned Energy Courses by |  |  |

[^19]
## OJC

At OJC, the number of redesigned DE courses totaled 9 unique course offerings and 27 unique section offerings unique course offerings through Spring 2013. Approximately twenty-three percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=561)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of OJC Students Enrolled in DE Redesigned Courses by Term |  |  |
| :--- | ---: | ---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| Spring <br> 2012 | 13.5 | 76 |
| Fall 2012 | 59.4 | 333 |
| Spring <br> 2013 | 27.1 | 152 |
| Total | 100.0 | 561 |

In terms of overall student retention, 82.0 percent of students ( $\mathrm{n}=460$ ) who registered for redesigned DE courses persisted in the course while 8.9 percent ( $\mathrm{n}=50$ ) dropped the course after the start of the semester and 9.1 percent ( $\mathrm{n}=51$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At OJC, just over half of students served by redesigned DE course were enrolled in English subjects (54.3\%), followed by DE Contextualized ( $20.9 \%$ ), Reading ( $15.9 \%$ ) and Math ( $8.9 \%$ ). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of OJC Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| English | 54.3 | 305 |
| Math | 8.9 | 50 |
| Reading | 15.9 | 89 |
| DE | 20.9 | 117 |
| Contextualized | 100.0 | 561 |
| Total |  |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: OJC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students is presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: OJC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total <br> Redesigned DE <br> Population (All <br> Subjects) | N <br> (Redesigned <br> DE <br> Population) |
| A | 10.9 | 61 |
| B | 7.1 | 40 |
| C | 8.2 | 46 |
| D | 3.0 | 17 |
| F | 5.4 | 30 |
| DE Level Grades Value | Percent | $\mathbf{N}$ |
| S/A | 5.5 | 31 |
| S/B | 13.2 | 74 |

| S/C | 16.6 | 93 |
| :--- | ---: | ---: |
| U/D | 4.1 | 23 |
| U/F | 7.8 | 44 |
| Not Completed | Percent | $\mathbf{N}$ |
| INC | 0.2 | 1 |
| Withdrawn | 9.1 | 51 |
| Null (Not completed) | 8.9 | 50 |
| Total | 100.0 | 561 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by OJC Students in DE Redesigned Courses ${ }^{\text {23 }}$ |  |  |  |
| :--- | :---: | :---: | :---: |

[^20]
## PCC

## Developmental Education

At PCC, the number of redesigned DE courses totaled 3 unique course offerings and 93 unique section offerings through Spring 2013. Approximately one-third of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=1831$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of PCC Students Enrolled in DE Redesigned Courses by Term |  |  |
| :--- | ---: | ---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| Spring 2012 | 23.3 | 426 |
| Summer <br> 2012 | 8.7 | 160 |
| Fall 2012 | 33.1 | 606 |
| Spring 2013 | 34.9 | 639 |
| Total | 100 | 1831 |

In terms of overall student retention, 72.6 percent of students ( $n=1329$ ) who registered for redesigned DE courses persisted in the course while 11.3 percent ( $\mathrm{n}=207$ ) dropped the course after the start of the semester and 16.1 percent $(n=295)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At PCC, ninety-six percent of students served by redesigned DE course were enrolled in Math subjects, followed by English (4 \%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of PCC Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |
| English | 4.0 | 73 |
| Math | 96.0 | 1758 |
| Total | 100.0 | 1831 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: PCC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | :---: |

[^21]
## PCC

## Energy

All energy courses offered as of Spring 2013 have been noncredit courses. We currently do not have a system in place at this time to track noncredit students. This system is being explored at the present time.

## PPCC

At PPCC, the number of redesigned DE courses totaled 3 unique course offerings and 125 unique section offerings through Spring 2013. Approximately fifty-four percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(n=518)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of PPCC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Summer <br> 2012 | 7.2 |  |  |
| Fall 2012 | 38.6 | 37 |  |
| Spring 2013 | 54.2 | 200 |  |
| Total | 100.0 | 281 |  |

In terms of overall student retention, 71.6 percent of students ( $\mathrm{n}=371$ ) who registered for redesigned DE courses persisted in the course while 13.5 percent ( $n=70$ ) dropped the course after the start of the semester and 14.9 percent ( $n=77$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At PPCC, seventy-two percent of students served by redesigned DE course were enrolled in Math subjects, followed by English (27.6 \%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of PPCC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |
| :--- | ---: | ---: | :---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |  |
| English | 27.6 | 143 |  |
| Math | 72.4 | 375 |  |
| Total | 100.0 | 518 |  |

Table 3 displays the redesigned course offered by course title. For the redesigned courses offered by course level, please refer to Appendix III as the table was too large to fit here. The percentage in Table 3 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

| Table 3: PPCC DE Redesigned Course Offerings by Course Title |  |  |
| :--- | ---: | ---: |
| Course Title | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |
| Basic Composition | 18.3 | 95 |
| Special Topics in <br> Math | 72.4 | 375 |
| Special Topics in <br> English | 9.3 | 48 |
| Total | 100.0 | 518 |

For PPCC's student enrollment by each course level of courses offered by subject, please refer to Appendix III as the table was too large to fit here.

## Course Level Academic Outcomes

The mode of all grades achieved by individual students is presented in Table 4. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 4: Number of PPCC Students Enrolled in DE Redesigned Courses by Course Title |  |  |
| :---: | :---: | :---: |
| DE Level Grades Value | Percent of Total Redesigned DE Population (All Subjects) | N (Redesigned DE Population) |
| S/A | 12.4 | 64 |
| S/B | 14.1 | 73 |
| S/C | 7.7 | 40 |
| U/D | 1.5 | 8 |

| U/F | 35.1 | 182 |
| :--- | ---: | ---: |
| Not Completed | Percent | $\mathbf{N}$ |
| Withdrawn | 14.3 | 77 |
| Null (not completed) | 14.9 | 74 |
| Total | 100.0 | 518 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 5. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Special Topics in Math | 1.2181 | 1.2181 | 1.5341 |
| Special Topics in <br> English | 1.6429 | 2.1532 | 1.5341 |

[^22]
## RRCC

## Developmental Education

At RRCC, the number of redesigned DE courses totaled 5 unique course offerings and 18 unique section offerings through Spring 2013. Approximately half of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(\mathrm{n}=260)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of RRCC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
|  <br> Year | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Fall 2012 |  | 45.4 |  |
| Spring <br> 2013 | 54.6 | 118 |  |
| Total | 100.0 | 142 |  |

In terms of overall student retention, 70.4 percent of students ( $\mathrm{n}=183$ ) who registered for redesigned DE courses persisted in the course while 24.2 percent ( $\mathrm{n}=63$ ) dropped the course after the start of the semester and 5.4 percent ( $n=14$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At RRCC, just over half of students served by redesigned DE course were enrolled in English subjects, followed by Math (15.0\%), Reading (16.2\%), and DE Contextualized classes (12.3\%). The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of RRCC Students Enrolled in DE Redesigned Courses by Subject |  |  |  |
| :--- | ---: | ---: | :---: |
| Subject | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| English | 56.5 | 147 |  |
| Math | 15.0 | 39 |  |
| Reading | 16.2 | 42 |  |
| DE <br> Contextualized | 12.3 | 32 |  |
| Total | 100.0 | 260 |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: RRCC DE Redesigned Course Offerings by Subject Level |  |  |  |  |  |

[^23]
## RRCC

## Energy

At RRCC, the number of redesigned energy courses totaled 5 unique course offerings and 10 unique section offerings through Spring 2013. Approximately ninety percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses $(n=151)$. The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of RRCC Students Enrolled in Redesigned Energy Courses by Term |  |  |
| :---: | :---: | :---: |
| Term \& Year | Percent of Total Redesigned Energy Population (All Subjects) | N (Redesigned Energy Population) |
| Fall 2012 | 11.3 | 17 |
| Spring $2013$ | 88.7 | 134 |
| Total | 100.0 | 151 |

In terms of overall student retention, 91.4 percent of students ( $\mathrm{n}=138$ ) who registered for redesigned energy courses persisted in the course while 5.3 percent ( $n=8$ ) dropped the course after the start of the semester and 3.3 percent $(n=5)$ withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At RRCC, every student served by redesigned energy course were enrolled in regular redesigned energy courses as opposed to the subject called contextualized energy. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of RRCC Students Enrolled in Redesigned Energy Courses by Subject |  |  |
| :---: | :---: | :---: |
| Subject | Percent of Total Redesigned Energy Population (All Subjects) | N (Redesigned Energy Population) |
| Energy | 100.0 | 151 |
| Total | 100.0 | 151 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: RRCC Redesigned Energy Course Offerings by Subject Level |  |  |  |  |  |  |  |  |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students in presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: RRCC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| College Level Grades Value | Percent of Total <br> Redesigned <br> Energy <br> Population (All <br> Subjects) | N <br> (Redesigned <br> Energy <br> Population) |
| A | 55.6 | 84 |
| B | 20.6 | 31 |
| C | 11.9 | 18 |
| D | 1.3 | 2 |
| F | 2.0 | 3 |
| Not Completed | Percent | $\mathbf{N}$ |
| Withdrawn | 3.3 | 5 |
| Null (Not completed) | 5.3 | 8 |
| Total | 100.0 | 151 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

| Table 7: Mean Grades Achieved by RRCC Students in Redesigned Energy Courses ${ }^{27}$ |  |  |  |  |

| Water Distribution | 3.4706 | 3.3290 | 3.3841 |  |

[^24]
## Developmental Education

At TSJC, the number of redesigned DE courses totaled 1 unique course offerings and 7 unique section offerings through Spring 2013. Approximately seventy-seven percent of all courses have been offered in the most recent term. Table 1 displays the roll-out of these course offerings by term as well as the percentage and number of total students served by these courses ( $\mathrm{n}=119$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of TSJC Students Enrolled in DE Redesigned Courses by Term |  |  |  |
| :--- | ---: | ---: | :---: |
| Term \& | Percent of Total Redesigned DE <br> Population (All Subjects) | N (Redesigned DE <br> Population) |  |
| Year |  | 22.7 |  |
| Spring | 77.3 | 27 |  |
| 2012 | 100.0 | 92 |  |
| Fall 2012 |  | 119 |  |
| Total |  |  |  |

In terms of overall student retention, $55.5 \%$ percent of students ( $\mathrm{n}=66$ ) who registered for redesigned DE courses persisted in the course while $29.4 \%$ percent ( $n=35$ ) dropped the course after the start of the semester and 15.1 percent ( $n=18$ ) withdrew from the course after the start of the term.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At TSJC, all of students served by redesigned DE course were enrolled in Math subjects. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of TSJC Students Enrolled in DE Redesigned Courses by Subject |  |  |
| :--- | ---: | ---: |
| Subject | Percent of Total Redesigned DE Population <br> (All Subjects) | N (Redesigned DE <br> Population) |
| Math | 100.0 | 119 |
| Total | 100.0 | 119 |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: TSJC DE Redesigned Course Offerings by Subject Level |  |  |  |
| :--- | :---: | :---: | :---: |
| Subject | Course Level |  |  |
|  | $\mathbf{4 5}$ | Total \% | Total N |
| Math | $100 \%$ | $100 \%$ | 119 |
| Total | $100 \%$ | $100 \%$ | 119 |

Tables 4 and 5 displays the redesigned course offered by course title and also by course level. The percentage in Table 4 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

| Table 4: Number of TSJC Students Enrolled in DE Redesigned Courses by Course Title |  |  |
| :---: | :---: | :---: |
| Course Title | Percent of Total Redesigned DE Population (All Subjects) | N (Redesigned DE Population) |
| Compress Pre Alg w/Basic Math | 100.0 | 119 |
| Total | 100.0 | 119 |

| Table 5: TSJC Redesigned DE Course Offerings by Course Level |  |  |  |
| :--- | :---: | :---: | :---: |
| Course Title | Course Level |  |  |
|  | $\mathbf{4 5}$ | Total \% | Total N |
| Compress Pre Alg w/Basic Math | $100 \%$ | $100 \%$ | 119 |
| Total | $100 \%$ | $100 \%$ | 119 |

## Course Level Academic Outcomes

The mode of all grades achieved by individual students is presented in Table 6. In general, students who did not complete the course for one or more reasons (dropped or withdrew) are summarized. Students enrolled in DE course receive grades that are not calculated into their cumulative GPA; however, they do receive a grade value for those who satisfactorily complete the course (i.e. A, B, and C) and for those who receive an unsatisfactory grade (i.e. D or F).

| Table 6: TSJC Cumulative Mode Grades Earned by Students |  |  |
| :--- | ---: | ---: |
| DE Level Grades Value | Percent of Total Redesigned <br> DE Population (All <br> Subjects) | N (Redesigned <br> DE Population) |
| S/A | 22.7 | 27 |
| S/B | 12.6 | 15 |
| S/C | 6.7 | 8 |
| U/D | 2.5 | 3 |
| U/F | 11.0 | 13 |
| Not Completed | Percent | $\mathbf{N}$ |
| Withdrawn | 15.1 | 18 |
| Null (Not completed) | 29.4 | 35 |
| Total | 100.0 | 119 |

Finally, a comparison of grouped mean grade outcomes is presented for each individual course (CRN) in Table 7. In order to conduct this analysis, the DE courses were assigned a numeric value ranging from $4.0(\mathrm{~S} / \mathrm{A})$ to $0.0(\mathrm{U} / \mathrm{F})$, in accordance to grading assessments for college level courses. Each individual group course mean (CRN) is then compared to all similar courses varying only by section number, by all courses offered at the same level, by all course offered within a department (subject) and then across the curriculum (DE). (Note: Future presentations of this data will provide descriptive text for the coded CRN number referenced under course mean.)

Table 7: Mean Grades Achieved by TSJC Students in DE Redesigned Courses ${ }^{28}$

| Course Title | Section <br> Mean | Department <br> Mean | Curriculum Mean |
| :--- | ---: | ---: | ---: |
| Compress Pre Alg w/Basic <br> Math | 2.6061 | 2.6061 | 2.6061 |

[^25]
## TSJC

## Energy

At TSJC, the number of redesigned energy courses totaled 1 unique course offering and 1 unique section offering through Spring 2013. The course was offered in the most recent term. Table 1 displays the roll-out of this course offering by term as well as the percentage and number of total students served by this course ( $\mathrm{n}=26$ ). The percentage is calculated by putting the number of students in the term in the numerator and the total in the denominator.

| Table 1: Number of TSJC Students Enrolled in Redesigned Energy Courses by Term |  |  |
| :--- | ---: | ---: | ---: |
|  <br> Year | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |
| Spring <br> 2013 | 100.0 | 26 |
| Total | 100.0 | 26 |

In terms of overall student retention, 76.9 percent of students ( $\mathrm{n}=20$ ) who registered for redesigned energy courses persisted in the course while 23.1 percent ( $n=6$ ) dropped the course after the start of the semester.

## Curriculum Level Outcomes

From a curriculum perspective, Table 2 presents the course offerings by subject and by level within each subject. At TSJC, every student served by redesigned energy course were enrolled in regular redesigned energy courses as opposed to the subject called contextualized energy. The percentage is calculated by putting the number of students in the subject in the numerator and the total in the denominator.

| Table 2: Number of TSJC Students Enrolled in Redesigned Energy Courses by <br> Subject |  |  |  |
| :--- | :---: | :---: | :---: |
| Subject | Percent of Total Redesigned Energy <br> Population (All Subjects) | N (Redesigned Energy <br> Population) |  |
| Energy |  | 100.0 |  |

Table 3 presents student enrollment by each course level of courses offered by subject.

| Table 3: TSJC Redesigned Energy Course Offerings by Subject Level |  |  |  |
| :--- | :---: | :---: | :---: |
| Subject | Course Level |  |  |
|  | $\mathbf{1 2 5}$ | Total \% | Total N |
| Energy | $100 \%$ | $100 \%$ | 26 |
| Total | $100 \%$ | $100 \%$ | 26 |

Tables 4 and 5 displays the redesigned course offered by course title and course level. The percentage in Table 4 is calculated by putting the number of students in the course in the numerator and the total in the denominator.

$\left.$| Table 4: Number of TSJC Students Enrolled in Redesigned Energy Courses by |  |

[^0]:    ${ }^{1}$ The report can be accessed here: https://docs.google.com/spreadsheet/ccc?key=0AoGDoJ9hgi1dHNqWHhRRUd2X1pOMmFVdUw5U1ltUWc\&usp=sharing

[^1]:    ${ }^{2}$ This data is valid as of 10-16-13 except for the data from CMC which was received on 7-21-13. While it does not appear that the data from CMC will change, we cannot declare this data validated.

[^2]:    ${ }^{3}$ All energy courses offered as of Spring 2013 at PCC have been noncredit courses. We currently do not have a system in place at this time to track noncredit students. This system is currently being explored.

[^3]:    ${ }^{4}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all redesigned courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^4]:    ${ }^{5}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all redesigned courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^5]:    ${ }^{6}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^6]:    ${ }^{7}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^7]:    ${ }^{8}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^8]:    ${ }^{9}$ This data is valid as of 7-21-13. However, we did not receive the data during our subsequent validation efforts. While it does not appear that the data will change, we cannot declare this data validated.

[^9]:    ${ }^{10}$ It seems that every student in this course each received a separate course number for the class ( $121,122,123,124,125,126$, and 127). Since all course numbers were from the same course, we combined these for our analysis.
    ${ }^{11}$ Like the 120 level courses, the student in this course each received a separate course number for the class $(130,131,132,133,134)$. Since all course numbers were from the same course, we combined these for our analysis.

[^10]:    ${ }^{12}$ It seems that every student in this course each received a separate course number for the class ( $121,122,123,124,125,126$, and 127 ). Since all course numbers were from the same course, we combined these for our analysis.
    ${ }^{13}$ Like the 120 level courses, the student in this course each received a separate course number for the class ( $130,131,132,133,134$ ). Since all course numbers were from the same course, we combined these for our analysis.

[^11]:    ${ }^{14}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^12]:    ${ }^{15}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^13]:    ${ }^{16}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^14]:    ${ }^{17}$ FRCC also offers noncredit energy. We currently do not have a system in place at this time to track noncredit students. This system is being explored at the present time.

[^15]:    ${ }^{18}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^16]:    ${ }^{19}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^17]:    ${ }^{20}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^18]:    ${ }^{21}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^19]:    ${ }^{22}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^20]:    ${ }^{23}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^21]:    ${ }^{24}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^22]:    ${ }^{25}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^23]:    ${ }^{26}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY, English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^24]:    ${ }^{27}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^25]:    ${ }^{28}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)

[^26]:    ${ }^{29}$ Course Mean (compares all identical courses by course title)
    Department Mean (representing all courses offered within the subject: Reading ONLY, Math ONLY,
    English ONLY, Energy ONLY, Contextualize DE and Contextualized Energy)
    Curriculum Mean (includes all courses offered within DE or Energy Curriculum)
