**Course Description:** This course is an introduction to corporate financial decision making. We will examine the relationships between corporate finance and human resource management and labor relations. In addition, you will learn how to use financial decision-making techniques for assessing and developing HR practices and programs.

**School of Management and Labor Relations Learning Goals Met by This Course**

II) Quantitative, Qualitative and Analytical Skills – Apply appropriate quantitative and qualitative methods for research workplace issues.

VI) Application – Demonstrate an understanding of how to apply knowledge necessary for effective work performance

VII) Professional Development – Demonstrate an ability to interact with and influence others in a professional manner, and to effectively present ideas and recommendations

**Text:** *Robert C. Higgins, Analysis for Financial Management, McGraw Hill, 12th edition, 2018 (ISBN-13: 978-1259918964)*

Additional materials as indicated below will be made available on Canvas.

**Required Software:** Adobe Acrobat Reader and Microsoft Word, Excel, and PowerPoint or other software with similar functionality by Google, Apple and others.

**Prerequisites:** An active e-mail account, netid, access to Canvas and basic knowledge of Microsoft Word Excel, Arithmetic, and Algebra (ratios, percentages, and word problems) are required.

**Recommended:** The reading of business publications such as the Wall Street Journal, New York Times, Fortune, or the Harvard Business Review is highly encouraged. Many business publications are available through the University Library– a service for which you have already paid. Additional web sites offering business insights in general and specific articles will be discussed in class and linked through Canvas.

**Class Approach:** There will be a lecture at each class and then a discussion of a series of cases. Power Point presentations used during the lecture will be posted shortly prior to class on Canvas so that you can use them as a basis for taking notes or to follow along.

**Required Work**

There will be ~bi-weekly Homework Assignments involving problem sets which will be discussed in class and assigned on Canvas. Students will be expected to participate during class in reviewing these assignments as part of their overall final grade.

Students will take one in class midterm exam and one take home final exam during exam week.

Students will also develop a Cost Benefit Analysis/Presentation project during the last two weeks of the semester.

**Cost Benefit Analysis/Return on Investment Project.** You will work on the following:

- I. Select an HR project or program, e.g. launching a Human Resource Information Systems division, developing a new training program, outsourcing an HR function.
- II. Prepare a detailed list of all the direct and indirect costs and benefits.
- III. Conduct an in-depth cost-benefit analysis using a Net Present Value model.
- IV. Calculate Internal Rate of Return of the proposed project or program.
- V. Write a report describing your analysis and rationale for your decision.

You will prepare this report for the Senior Vice President of Human Resources. This report must state your recommendation and summarize all analyses. Also, you will prepare and deliver a PowerPoint presentation to the HR executive committee (comprised of instructor and class participants) of your recommendation and analyses. Grades will be based on the quality of the:

- I. Analysis
- II. Written report
- III. Presentation

**Assessment Policy**

**Grading:** Grades will consist of the following components of 100% of the grade:

Midterm Exam (In Class)	25%
Final Exam (Take Home)	25%
Cost Benefit Analysis/Presentation	15%
Homework Assignments (~5 bi-weekly)	35%

Letter Grade	Scores Based on Course Components
A	90-100
B+	85-89
B	80-84
C+	75-79
C	70-74
D	60-69
F	< 60

Note: Rounding up or down for ‘in between grades’ will be based on multiple factors including participation and attendance; but will only be considered for 1% point. For example, an 84.6%

***HR Decision Making: Financial Decisions***

---

may round up to an 85% for a B+ if attendance and participation are exceptional; an 84.4% will in all but exceptional instances not round up; and a 83.9% will not be considered for rounding up to a B+. The thresholds for final letter grades will be re-scaled if a conventional standard seems unreasonable.

Requests for recommendations must be made in writing after completion of the course.

**Attendance and Participation:** Participation in the lectures is critical to the class both in terms of being present in class and fully participating. Attendance will be taken in class during each class, and those not participating will have their final grades impacted accordingly. Materials will be presented in class that are not covered in the readings and they will make up a significant part of the examinations. All additional materials will be available on Canvas.

A student missing more than 50% of the classes will not receive credit for this course. Each student will have one excused absence that will not count towards these missed classes or receive any penalty to their attendance grade. This excused absence can be used for any reason and does not require a note, so it can be used for an absence related to an illness, for example.

At the instructor’s discretion, perfect attendance (attending all classes in full) and consistent contributions to class discussions and homework review may improve your final grade. Conversely, attendance below ~85% will reduce your final grade on a sliding scale. You should track your attendance on Canvas, and your overall attendance percentage (present in class out of total classes where attendance was taken) can be seen on Canvas in the Gradebook under Roll Call Attendance.

**Readings and Deadlines:** All readings should be completed prior to the date noted on the syllabus. Due dates and deadlines are firm. Unless you can get prior approval, each day late will result in increasing penalties. You must download your assignments and upload your completed written assignments in the Assignments folder on Canvas.

**Assigned Readings:** Note that the assigned readings indicated below will be revised over the course of the semester; please pay attention during class and on Canvas for specific assignments and due dates.

**Academic Integrity:** All students are responsible for locating, reading, and abiding by the University Policy on Academic Integrity for Undergraduate and Graduate Students. The policy is available on-line at <http://cat.rutgers.edu/integrity/policy.html>.

**Special Needs:** Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: <https://ods.rutgers.edu/students/registration-form>.
