### **Course Description**

The course was designed for those students with a strong interest in social media platforms, the consequences of Social Media, and how these tools may be used in Human Resources.

Topics covered will include social networking how/why the business world leverages them, virtual worlds and technologies, skills in designing and implementing social media for Human Resources. We will also examine social media from a cultural and political perspective with a focus on how media technologies figure in practices of everyday life, Human Resources, and in the construction of relationships and identities.

Working from an expansive definition of what constitutes social media; we will consider numerous social network sites, smartphone apps, and other technologies. The course itself will involve communication in social media channels specifically Youtube and other platforms. The overall goal is to introduce you to the various forms of non-traditional social media and to encourage the use of these tools. You should be able to understand and utilize various social media tools effectively across the human resources function to contribute to an organizations' advantage as well as introduce you to various Social Media Policy structures.

You will gain practical experience while learning best practices around Social Media, developing insights you can carry into a professional career. You will also learn how to use new social tools to augment job search/recruiting/communication and work effectiveness. You are encouraged to discover the materials in your own way and at your own speed while getting feedback and guidance.

## **Expectations and Goals**

This schedule represents a good faith effort to describe our strategic plan for the course. I may alter the order or content of topics, activities, and assignments as necessary or appropriate given the nature of social media, I expect changes to happen often. **It is the student's responsibility to keep track of what goes on in class as well as all readings and deadlines.** Please do not ask me to email you content you may have missed (this all should be available to you on Canvas). I'm happy to meet by appointment (in person or over the phone) to discuss any of the material or assignments. **You will be expected to use Social Media Platforms if you don't use them you will need to create accounts.**

5. Evaluate HR social media strategy and integration from across multiple departments and industries.

## **Required Learning Materials:**

There are no required textbooks used, instead, you will be required to read articles that will be made available to you through this course. Case studies, readings, videos, and other course content will be delivered using numerous Digital and Social Media platforms and tools.
